Offering a **complete range** of products
for your food service establishment.

From farm to table

We are proud to support
farmers & their families

Our story

SINCE 1857, RICHARDSON has built trusted relationships with farmers to bring quality agricultural products to the world market. Today, our business has grown to be vertically integrated from the farm to the consumer's table. Our canola processing plants supply the oil used in packaging plants in Alberta, Ontario, and Tennessee to manufacture a full line of non-hydrogenated oils, margarines, shortenings and laminating fats.

BRINGING **QUALITY INGREDIENTS** TO THE TABLE
